

# wall primer application notes

Lullaby Paints  
WALL PRIMER

## Description

- Lullaby Paints Wall Primer

## Storage

- Protect from frost/freezing

## Where to Use

- Interior walls and ceilings - for priming and sealing dry, bare plaster and plasterboard prior to painting

## Preparation

- Ensure the woodwork is sound, smooth, dry and free of dust, dirt and grease.
- Knots should be treated with two liberal coats of ECOS white knotting\*
- Fillers should be sealed with Filler Sealer
- Bare hardwoods - call us at 864.595.3840 for assistance

## Application

- Stir gently and thoroughly before use
- Ensure that the plaster is dry and dust free, non greasy and clean
- Avoid applying below 41°F (5°C) and above 68°F (20°C)
- Apply by brush or roller
- Spread so as to give an even, thin coverage
- Allow to dry thoroughly before painting
- Clean equipment with water, as soon as you have finished painting

## Drying Time

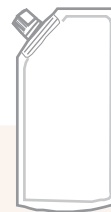

- Is highly dependent on conditions of use, but normal drying is in the range of 1 to 4 hours (depending on the porosity of the plaster, local ventilation and temperature)

## Coverage

- Varies with porosity, but on hard non-porous surfaces estimate:  
260 sq. ft. per quart (single coat)  
430 sq. ft. per gallon (single coat)

## Health and Safety

- Avoid contact with skin and eyes. Wash off splashes with water. Do not ingest
- WARNING: Older buildings may contain lead-based paint, which requires professional remediation if it is disturbed. If in doubt, consult with a professional from a Lead-Safe Certified Firm.

## More Tips:

### Getting the Most Out of Your Pouch

Twist and squeeze pouch for full use. In addition, the pouch can be cut open using scissors. Squeeze out air before resealing

### Discarding Paint Pouches

Let dry in an air cooled place and discard in accordance with local ordinance

**Help us to provide a healthy, safe environment for moms and babies**
